

Arizona Rare Fruit Growers Subtropical Fruit Census

This census is to identify and document warm climate varieties of trees, shrubs, and vines growing outside their habitat in the Salt River Basin and adjacent areas. The primary objective is to study the successful growing practices of these plants. This data is public domain and will be used by AzCRFG **only** for educating its members and the public. If data is unknown, leave those spaces blank. We appreciate your participation. Thank you!

Fruit Species (i.e., avocado) _____
Variety (i.e., Hass) _____
Grafted Y __N __ Variety of graft? _____
Seedling Y__N__
As accurately as possible, describe the plant. Age ____ Height____ Breadth____ Color____
Does it bear any fruit? _____
How much fruit? (circle one) Low, Medium, High
Fruit flavor? _____
Comments: _____

Physical address of plants (i.e., 4341 E. Broadway Rd.)

Where is the plant located **on** the property? (middle, corner, etc)

What sun/ shade exposure does the plant receive?

Cultural Practices:

How much irrigation and how often? _____

How much fertilizer and how often? _____

What is your soil type? _____

Comments: _____

optional

Owner/resident name _____

Phone number _____

E-mail _____

If you have other unusual subtropical plants, please use a separate sheet.

May we contact you for more information about pictures, grafting, cultivation practices, etc.? _____

The Arizona Rare Fruit Growers (www.azrfg.org) is an associate of the California Rare Fruit Growers (www.crfg.org). Meetings are held at Maricopa County Cooperative Extension Service; 4341 E. Broadway; the second Thursday of the month starting at 7:30 pm. Please join us.
